

# Revelation 12

September 23, 2017

Job 9:9  
who made the  
Bear and Orion,  
the Pleiades and  
the chambers of  
the south.

Genesis 1:14  
And אַיָּה said, "Let there  
be lights in the expanse of  
the Shamyim (heavens) to  
separate the day from the  
night. And let them be for  
signs and for seasons, and  
for days and years.

## Revelation 12v1-2

And there appeared a great wonder in heaven;  
a woman clothed with the sun,  
and the moon under her feet,  
and upon her head a crown of twelve stars:  
And she being with child cried,  
travailing in birth, and pained to be delivered.

“The Shamyim (Heavens) declare the esteem of אַיָּה (Yahuah), and the sky above proclaims his handiwork” **Psalms 19:1**

And Alahym (God) said, Let there be lights in the firmament of Shamyim (Heavens) to divide the day from the night; and let them be for signs, and for seasons, and for days and years: **Genesis 1:14**

He counts the number of the stars; He gives names to them all. **Psalms 147:4**

and there will be great earthquakes, and in various places plagues and famines; and there will be terrors and great signs from Shamyim (Heavens).

**Luke 21:11**

“And there will be signs in Sun and Moon and Stars, and on the Earth distress of nations in perplexity because of the roaring of the sea and the waves, Men will faint from fear and anxiety over what is coming upon the Earth, for the powers of the Shamyim (Heavens) will be shaken.... **Luke 21:25-26**

Thus says אַיָּה (Yahuah), "Do not learn the way of the nations, And do not be terrified by the Oth (signs) Strong's#: 226, means banners, omens, pledge, sign, signs, standards, witness, wondrous in the Shamyim (Heavens), although the nations are terrified by them. **Jeremiah 10:2**

And I will show wonders in the Shamyim (Heavens) and in the Earth: blood, and fire, and pillars of smoke. **Joel 2:30**

I will show wonders in the Shamyim (Heavens) above and signs on the earth below, blood and fire and clouds of smoke. **Acts 2:19**

Lift up your eyes on high and see: who created these? He who brings out their host (tsaba=Strong's #: 6635, means; army, war, warfare) by number, calling them all by name, by the greatness of his might, and because he is strong in power not one is missing. **Isaiah 40:26**

In **Revelation 6**, the verse is as follows: “12 And I beheld when he had opened the (6<sup>th</sup>) sixth seal, and, lo, there was a Great earthquake; and the Sun became black as sackcloth of hair, and the Moon became as blood;” This is describing (2) two things happening simultaneously: one is a solar eclipse, and the other is a lunar eclipse. This should be impossible, according to the following logic: in order to have a lunar eclipse, the earth needs to be placed between the Moon and the Sun, and in order to have a solar eclipse, you need to have the Moon placed between the Sun and the Earth. It is therefore impossible for these (2) two things to happen simultaneously unless there is a 3rd object that comes into play that moves between the Earth and the Sun, Nibiru (Planet X)?

**Revelation 6:13** And the stars of Shamyim (Heavens) fell unto the earth, even as a fig tree castes her untimely figs, when she is shaken of a mighty wind. 14 And the Shamyim (Heavens) departed as a scroll when it is rolled together; and every mountain and island were moved out of their places.” This (1<sup>st</sup>) first verse is describing a meteor shower of sorts, with many meteorites falling to Earth, and the (2<sup>nd</sup>) second is describing a pole shift; because the northern and southern poles change, the sky would appear to recede, as our maps as we know them would suddenly have an entirely different orientation, as the North and South poles themselves will change. This is further supported in **YeshuYahu (Isaiah) 24:20**, which, speaking of the same event. YeshuYahu (Isaiah) was a prophet of the Tanakh (old testament), and he prophesized events that are supposed to transpire in step with Revelation, when he said the following in **Isaiah 24:20** The earth shall reel to and fro like a drunkard, and shall be removed like a cottage; which is describing a scene where the earth is attempting to align its new poles with the way the earth rotates on its axis. A pole shift also explains why there was a great earthquake that happens when the 6th scroll is open.

After the (6<sup>th</sup>) sixth seal is opened, John, who wrote Revelation on the Island of Patmos, expresses surprise at a great number of gentiles of many languages and nations suddenly appearing in Shamyim (Heavens), following 144,000 of the 12 tribes of Yisrael getting the seal of אַיָּאֵל (Yahuah) on their foreheads; these two groups are separate, as indicated by one group being gentiles, and the others being specified as Hebrews descendant of certain

Yisraelite tribes. This suggests that the snatching away (rapture) happens shortly after the (6<sup>th</sup>) sixth seal is opened.

Fast forward a bit to **Revelation 12**: As it just so happens, we have a literal interpretation of this scene happening throughout 2017, beginning in January, and coming to a head on September 23rd, 2017.

On September 23, 2017 the Shamyim (Heavens) will display an amazing celestial sign. The “sign” is found in the book of **Revelation** chapter **12** and will be portrayed across the skies....

### **The Woman and the Dragon**

And a Great sign appeared in Shamyim (Heavens): a woman clothed with the Sun, with the Moon under her feet, and on her head a crown of (12) twelve stars. **2** She was pregnant and was crying out in birth pains and the agony of giving birth.

On November 20, 2016, an astronomical event has begun that will last (9) nine and (½) half months, culminating in startling concurrence with the vision of **Revelation 12**. While I am not an astronomer, all my research indicates that this astronomical event, in all its particulars, is very unique in the history of mankind.

On November 20, 2016, Jupiter (the King planet) enters into the body (womb) of the constellation Virgo (the virgin). Jupiter spends the next 9 ½ months within the womb of Virgo. This length of time corresponds with gestation period of a normal late-term baby. After 9 ½ months, Jupiter exits out of the womb of Virgo. Upon Jupiter’s exit (birth), on September 23, 2017, we see the constellation Virgo with the Sun rise directly behind it (the woman clothed with the sun).

What happens next is most interesting: **Revelation 12:3** And another sign appeared in Shamyim (heavens): behold, a great red Dragon, with (7) seven heads and (10) ten horns, and on his heads (7) seven Crowns.

The dragon is thought to be Planet X or Nibiru. A paranormal researcher has claimed that new “overwhelming evidence” has emerged from scientific and biblical sources that the long-anticipated arrival of Planet X/Nibiru will occur in September-October 2017. The researcher has issued an urgent warning to the world that arrival of the dreaded planet will have catastrophic consequences for humanity.

According to paranormal researcher David Meade, author of the book “Planet X — The 2017 Arrival,” evidence of Planet X’s approach comes from scientific as well as scriptural sources. Other sources include Ancient and Geological history. The Dragon’s tail drags along a group of stars, will be seen in the sign of Virgo on 9-23, 2017 with the naked eye. The Dragon is drawn toward Jupiter, but the sun pulls Jupiter out of the way. On 10-23, 2017 the Dragon

is so large we will no longer see Virgo.

The name “Nibiru” originated from the ancient Sumerians, who once inhabited ancient Mesopotamia, modern-day Iraq. It is the (12th) twelfth planet describe by Zecharia Sitchin.

- Nibiru is also called Marduk, and it arrives at our solars system with an extreme clockwise elliptical course.
- According to several ancient texts from Mesopotamia, there is strong evidence that supports theories that Nibiru (Planet X), has an orbital period of 3600 years. The number 3,600 was represented by the Sumerians as a large circle.
- Ancient Astronaut theorists believe that the convergence of the three concepts – planet / orbit / and number 3,600 – could not be a coincidence.
- Strangely, The periods of the kingdom were also multiples of shar, 3,600 years, leading to the speculation that the empires shares were related to the orbital period of 3600 years.
- NASA has identified a planet with an anomalous orbit around our Sun; they refer to it as Planet X. The Washington post and other news agencies
- Mythologically speaking, it has the appearance of a fiery beast, appearing in the sky like a second sun.
- Nibiru is a magnetic planet, causing the Earth to tilt in space as it passes.
- Nibiru is believed to have (4) four times the diameter of Earth and is 23 times more massive, a truly gigantic planet.

- According to ancient texts, Nibiru is wrapped in a cloud of dust iron oxide red, making the rivers and lakes acquire a reddish color.
- It is believed that it would cause days of obscurity while passing next to other planets, possibly even stopping their rotation during its transition across space due to its incredible magnetic properties.
- Nibiru is also associated with great dangers. Some researchers believe if a planet like Nibiru would come close to Earth, it would cause large earthquakes, tsunamis, volcanic eruptions creating an entirely new geography and climate.
- It is called "The Destroyer" in the Kolbrin, a parallel Bible located in the monastery of Glastonbury in Scotland; Men forget the days of the Destroyer. Only the wise know where it went and that it shall return at the appointed time. ... It is the Destroyer ... Its color was bright and fierce and ever-changing, with an unstable appearance ... a fierce body of flames.
- On October 23, 1996 an article from AP called "New rebel planet found outside the solar system" states the following: A new planet that breaks all the rules about how and where planets form has been identified in orbit of a twin star about 70 light years from Earth in a constellation commonly known as the Northern Cross. The new planet has a roller coaster like orbit that swoops down close to its central star and then swings far out into frigid fringes, following a strange egg-shaped orbit that is unlike that of any other known planet.

Let's put this into context with what Nibiru (Planet X) has been hypothesized to be: a brown dwarf star, with several planets, moons, and smaller satellites orbiting around it. This imagery even fits with what is supposedly a leaked image of Nibiru (Planet X), which is shown to have at least several objects in orbit around the thing.

So there is a literal interpretation of **Revelation 12:3**; Nibiru (Planet X) the

brown dwarf star appearing as a red dragon, with 7 planets (heads) and 10 horns (moons) and 7 crowns (satellites) upon its heads. **Revelation 12:4** His tail swept down a (3<sup>rd</sup>) third of the Stars of Shamyim (heavens) and cast them to the Earth. And the Dragon stood before the woman who was about to give birth, so that when she bore her child he might devour it.

So what we'll likely experience with the stars falling from Shamyim (Heavens) is Earth moving through its debris field, and we'll see Nibiru (Planet X) appear to stand in front of Jupiter, as if to devour it.

**5** She gave birth to a male child, one who is to rule all the nations with a rod of iron, but her child was caught up to אַיָּאֵל (Yahuah) and to his throne, **6** and the woman fled into the wilderness, where she has a place prepared by אַיָּאֵל (Yahuah), in which she is to be nourished for 1,260 days. Immediately following this, **Revelation 12:7** states: Now war arose in Shamyim (heavens), Michael and his Malakym (angels) fighting against the Dragon. And the Dragon and his Malakym (angels) fought back, **8** but he was defeated, and there was no longer any place for them in Shamyim (heavens). **9** And the great Dragon was thrown down, that ancient serpent, who is called the Devil and HaSatan, the deceiver of the whole world—he was thrown down to the Earth, and his Malakym (angels) were thrown down with him. **10** And I heard a loud voice in the Shamyim (heavens), saying, “Now the salvation and the power and the kingdom of our Aluah (God) and the authority of his Messiah have come, for the accuser of our brothers has been thrown down, who accuses them day and night before our Aluah (God). **11** And they have conquered him by the blood of the Lamb (OBYָּאֵל -Yahusha) and by the word of their testimony, for they loved not their lives even unto death. **12** Therefore, rejoice, O Shamyim (heavens) and you who dwell in them! But woe to you, O earth and sea, for HaSatan (the Devil) has come down to you in great wrath, because he knows that his time is short!” **13** And when the Dragon saw that he had been thrown down to the earth, he pursued the woman (Yisrael) who had given birth to the male child (OBYָּאֵל -Yahusha). **14** But the woman (Yisrael) was given the (2) two wings of the great eagle so that she might fly from the serpent into the wilderness, to the place where she is to be nourished for a time, and times, and half a time. **15** The serpent poured water like a river out of his mouth after the woman (Yisrael), to sweep her away with a flood. **16** But the Earth came to the help of the woman (Yisrael), and the Earth opened its mouth and swallowed the river that the Dragon had poured from his mouth. **17** Then the Dragon became furious with the woman (Yisrael) and went off to make war on the rest of her offspring (Gentile believers), on those who keep the Commandments of אַיָּאֵל (Yahuah) and hold to the testimony of OBYָּאֵל (Yahusha). And he stood on the sand of the sea.

### **Revelation 2:1-17**

Traditionally and for most of history, the interpretation of the sign in **Revelation 12** was predominantly understood to be symbolic only and given

the symbolism provided and expounded on from other passages in scripture, it is a valid interpretation. However, a symbolic interpretation is not the only possible application available as recent technology has allowed us to carefully study the Shamyim (Heavens) and the position of celestial objects at times in the past and also into the future. It is therefore very interesting to note that the sign of **Revelation 12** has a very rare and unique physical match in a celestial alignment to match the description given in **Revelation 12**. This started in November of 2016 and ends on September 23rd, 2017. What is further amazing is that this sign, as described by John, only occurs (1) once throughout all of earth's history.

On September 23, 2017 a sign forms in the Shamyim (Heavens) that fits the requirements of **Revelation 12**. As far as can be determined from computer models, this is the only time this sign will occur in history. Therefore, this would literally be the Great Sign of Revelation that is to appear in the Shamyim (Heavens). The woman in Shamyim (Heavens) is Virgo, the Virgin. The Sun is "clothing Virgo" and the Moon is actually under her feet. The garland of (12) twelve stars are the (9) nine stars of Leo with (3) three wandering stars that have been situated within Leo at this time to make (12) twelve. Those wandering stars are: Mercury, Mars, and Venus. The last element of the sign is that the Virgin must be with child. The planet or star of the Messiah is known as Tsedeq (Jupiter). Tsedeq (Jupiter) at this time is in the womb of Virgo. Again, no replication of this sign has yet to be found, as this is a once in 7000 year event.

The names of each star and their patterns of movement are by design, and

not by coincidence. It is with this premise we will uncover the remarkable statement **יְהוָה** (Yahuah) is making with this specific sign, which He draws our attention to in **Revelation 12**.

In this event Virgo, the Virgin is giving birth to Jupiter (the King Planet) while holding an ear of wheat in her hand. The Alpha Star of the constellation Leo, or Lion of Yahudah (Judah). Regulus is (1<sup>st</sup>) first to rise on the horizon, followed by Venus (the morningstar). This sign is loaded with many symbolic and literal meanings.

By taking a closer look at each planet involved, we can get a better understanding of what this sign in the Shamyim (Heavens) is declaring and what message is it conveying, what warning is it revealing.

### **Jupiter**

Tsedeq **צדק** (tseh'-dek), meaning 'Righteousness' Strong's #: 6664, translates as Jupiter and is the 5th (the number of grace) and largest planet in our solar system and is known as “The King Planet”. The largest planet in our solar system carrying with it the 5th spot from the Sun. We have “the King arriving as lightning in full esteem (grace).”

Even more astounding is what **Revelation 12:5** has to say regarding the birth: **5 And she brought forth a man child, who was to rule all nations with a rod of iron;** Jupiter just happens to have a core made of iron and nickel, which fits the verse both literally and poetically with what will be happening in the Shamyim (Heavens).

### **Regulus: The Alpha Star of Constellation Leo**

In all ancient cultures the star Regulus was a term of Royalty. It is the king star in the constellation Leo, which in Hebrew tradition always represented “The Lion of Yahudah (Judah)”. Leo is the Lion, in Hebrew tradition the lion was the symbol of the tribe of Yahudah (Judah). A Sign announcing the soon arrival of “The King, **יְהוֹשֻׁעַ** (Yahusha), the Lion of Yahudah (Judah).”

### **Venus: The Morningstar**

After the Moon, Venus is the brightest object in the sky. It is the closest in size to earth and it is always brighter than any other star in the sky besides the Sun. In this Great sign event you can clearly see that it rises in the east.

**יְהוֹשֻׁעַ** (Yahusha) is referred to as our bright and Morningstar. “I, **יְהוֹשֻׁעַ** (Yahusha), have sent my Malakym (angel) to testify to you about these things for the body of Messiah. I am the root and the descendant of David, the bright (lampros #2986) and morning star (próinos #4407) Star (astér #792).”

### **Revelation 22:16**

The Hebrew word *Helel* **הִלֵּל** (a shining one), Strong's #: 1966, translates as Venus and is known as the Morningstar when it rises in the east. We find *Helel* **הִלֵּל** (a shining one), the "son of the morning," in **Isaiah 14:12**, and is

also though to be the morning star (Venus when visible before dawn). This identification is better known to many English Bible readers as its Latin translation Lucifer, the "light-bearer", when cast down from the Shamyim (Heavens).

## **The Sun**

The Hebrew word *Hammah* הַמָּח, translates as The Sun. The Sun is the brightest object in the sky, and has even been worshiped as an Alahym (God) throughout history because it was considered the giver of life.

The English word *Son* is translated from the Hebrew word *Shemesh* Strong's#: 8121. The word *Shemesh* comes from *Shamash* which means to serve. The *Zohar Chadash* (Beraishis 518) states that the sun is called *Shemesh* because it 'serves' humanity and sustains all life - מִשְׁמֵשׁ אֶת הַכֹּל.

I believe this better explains why the Sun, as opposed to the stars or constellations, was given this name *Shemesh*, as it literally does support all of life on earth more than any other astrological body.

## **Mars:**

The Hebrew word *Ma'adim* מַאֲדִים, translates as Mars and has always been associated with war. From the planet of Nergal the Babylonian war-god to the Roman God of War. The ancient cultures in the far east also attribute Mars to war and destruction. From ancient Sumeria, Persia and to the far east there are associations with Mars and destruction. Many theorize that Mars was a major factor in *Malakym* (angels) wars of the past. Remember, *Yahuah* (Yahuah) named the stars and He reigns over every detail for His esteem. Therefore, Mars is "war".

## **Mercury**

Mercury was known as the Roman deity which meant "messenger to the Alahym (gods)". In Latin, *Mercurius* was originally Alahym (god) of tradesman and thieves. In ancient Mesopotamia Mercury was named after the Alahym (god) of water and writing. in 733 B.C. the Mayans considered Mercury a morning star. In Egypt, Mercury was associated with the Alahym (god) *Thoth* – who was considered the Alahym (god) of knowledge, the inventor of speech, writing and arithmetic.

In Rome we have messenger to the Alahym (gods), in Egypt knowledge, writing and the inventor of speech and in Mesopotamia we have Alahym (god) of water and writing. When we piece this together we have many specific references. Water is symbolic of the *Ruach HaKodesh*.

## **Spica**

*Spica* is the 15th brightest object in our sky. It is the Alpha star in the constellation *Virgo*, also known as *Alpha Virginis*. *Virgo* is the constellation which represents the *Virgin* of mythology and also ancient Hebrew tradition in

the Mazzaroth.

The star Spica is known as the ear of wheat in Virgo's hand. The star Spica is actually a binary star with each star many times larger and brighter than our sun. Some astronomers believe that it may be not just a binary star but actually a quintuple star. A binary star is defined as two stars indistinguishable by telescope as a single light. The meaning here is very clear, it signals the "gathering of the wheat".

Let both grow together until the harvest, and at harvest time I will tell the reapers, "Gather the weeds (1<sup>st</sup>) first and bind them in bundles to be burned, but gather the wheat into my barn." **Matthew 13:30**

### **The Moon**

The Hebrew word **yareach** יָרֵיחַ, translates as Moon. A brief study on the etymology behind "Moon" will show you that it means "Month". All traditions from Sanskrit to Germanic, and from Latin to Greek and even the Slavic languages trace Moon to "Month".

Therefore we have, the Virgin Month. Now why is "Month" significant to this interpretation? Because, **OWYAZL** (Yahusha) specifically said "no man knows the day or hour which your bridegroom come." The **Revelation 12** event of September 23rd, 2017 takes place (2) two days after the Feast of Trumpets which is known as "The feast which sounds the return or advancement of our King and is also known in Hebrew tradition as a day in which no man knows the day or hour". **AYAZL** (Yahuah), the Aluah (God) of all creation, He will chose the "day" and "hour" (2) two very small and precise units of time.

The final piece of our **Revelation 12** celestial alignment is that of the Moon rising in the east. The last object to ascend is that of the virgin bride. We take all these cultural references to the Moon and we have "the Month of the Virgin."

If we take all the individual meanings of each star and planet included in this stellar alignment we have a clear prophetic meaning.

Remember, **AYAZL** (Yahuah) created the Shamyim (Heavens) for "Signs" and for "Seasons", which refers to "Appointed times", and this does not mean the seasons of winter, spring, summer and fall. An entire chapter in Revelation is devoted to this "Great sign." I believe this is worth paying attention to.

When we put it together understanding the meaning of each star and planet named in this Prophecy, i.e.. Regulus, Venus, Mars, Mercury, Sun, Spica, Jupiter, and the Moon a clear message is given.

The King, The Lion of Yahudah, Royalty of Yahudah (Judah), who is The Morningstar of Love, The Written Word, The One Who brings Light into Darkness, Gathering of the Wheat, Coming War, The King Is Arriving As Lightning With Esteem (Grace) for His Virgin.

## **Wormwood**

Wormwood Strong's #: 894 *ápsinthos* – a bitter plant known as "Wormwood"; (figuratively) what is intensely bitter (grievous), bringing on *very sad results* (used only in **Revelation 8:10-11**), and is one of the Shofar (trumpet) judgements: **10** And the (3<sup>rd</sup>) third Malakym (angel) sounded the Shofar (trumpet), and there fell a great star from Shamyim (heavens), burning as it were a lamp, and it fell upon the (3<sup>rd</sup>) third part of the rivers, and upon the fountains of waters; **11** and the name of the star is called Wormwood: and the (3<sup>rd</sup>) third part of the waters became wormwood; and many men died of the waters, because they were made bitter.

The following is just personal conjecture, but I believe that wormwood is an asteroid that will be disturbed by Planet X (Nibiru)'s entrance into our solar system, and is "pushed" to Earth, where it lands in one of our waters, making the waters "bitter". However, it has been said in the mainstream news outlets that a "mystery object" is heading for earth and scheduled to make a "flyby" in early 2017. If this object is wormwood, it would certainly fit the timeline by virtue of the fact that it is supposed to occur in early 2017, whereas the **Revelation 12** sign doesn't fully come to fruition until **September 23<sup>rd</sup>, 2017**.

Any study of astronomy will tell you the uniqueness of this event. The study of John's vision in **Revelation 12** will tell you he was speaking of a specific alignment of stars in the Shamyim (Heavens).

This sign does represent the birth of the Messiah from the virgin of Yisrael, but it should also be taken as an actual sign to be seen in the Shamyim (Heavens) and thereby we should understand the time which these significant event may occur.

The problem then is to determine where it occurs within the timeline of the end of days. That is, where does it occur in relation to the 70th Week of Daniel, the final period of (7) seven years before Messiah comes to retrieve his Bride (Chosen believers). The solution lies within Micah 5.

In **Micah 5** the timeline of the Messiah is given. First he will be born in Bethlehem and he is to be known as the one who will be ruler in Yisrael. Micah then says that Messiah will give them up "until the time that she who is in labor has given birth." (40) Forty days after the resurrection, **OWYAZL** (Yahusha) ascended into the Shamyim (Heavens). According to Micah, Yisrael's remnant will return to the children of Yisrael only after she has given birth.

But you, Bethlehem Ephrathah, Though you are little among the thousands of Yahudah (Judah), Yet out of you shall come forth to Me The One to be Ruler in Yisrael, Whose goings forth are from old, From everlasting. Therefore He shall give them up, Until the time that she who is in labor has

given birth; Then the remnant of His brethren shall return to the children of Yisrael. **Micah 5:2-3**

The sign of **Revelation 12** is the sign that marks this time. It marks the transition to Daniel's 70th Week. This sign appears in the Shamyim (Heavens) just (2) two days after the Feast of Trumpets and likely the snatching away of the believers of the Messiah.

All the qualifiers are there from September 23-25, 2017 for this sign, which comes 1,260 days after the first tetrad (4 Blood Red Moons) of April 15, 2014. However, Jupiter remains in the womb a few more weeks when it will then emerge on November 13, 2017. Jupiter emerges and is joined in conjunction with Venus. This day comes 444 days after their previous conjunction on August 27, 2016 which marks Jupiter's entry into Virgo. If November 13, 2017 marks the beginning of the significant spiritual return of Yisrael, then (6) six days later marks what appears to be the beginning of the 70th Week of Daniel.

Therefore, the sign of **Micah 5** and **Revelation 12** is an actual sign in the Shamyim (Heavens) that can be documented and is yet to happen. It marks the time at which a true return of Yisrael will occur. It is not an accident that it comes right after the Feast of Trumpets, the time of the last Trump for the Chosen believers.

The sign of **Revelation 12** pictures Yisrael and the Messiah, which is a Great sign in the Shamyim (heavens). It should be treated as a sign of major

significance. The problem is that some have viewed this sign as relating to the middle of the Tribulation. The reason that is done is because of its context with the Dragon (HaSatan) who is thrown down from Shamyim (Heavens) to persecute Yisrael for 1,260 days (3.5 years) until the conclusion of the 70th Week. However, this sign is broader in scope since it also refers to the birth of **OWYAZ** (Yahusha) over 2,000 years ago. Some have even tried to say this sign played out at the time of Messiah's birth, but the planetary alignments put forward of that time do not compare to what is to occur in 2017.

The sign of **Revelation 12** has many details that are common, but uncommon when all put together. The (1<sup>st</sup>) first part of the sign is the woman clothed with the Sun. This happens every year, but it narrows the time down to (1) one month around the autumn equinox. The woman is represented by Virgo (the virgin). She is clothed by the Sun from mid-September to early October. September 23, 2017, which meets these requirements.

The next requirement is that the Moon must be under the feet of Virgo. With the Sun in Virgo and her feet to the east, the Moon must be a few days past new Moon. Since the Feast of Trumpets (September 21, 2017) is on the new moon, September 23-25 places the moon in the correct position. This happens every year on the Hebrew Calendar as long as the new Moon did not occur too early or too late in relation to the equinox, which would put the Sun too high or low in Virgo. Here it is perfect. The requirement of the Moon and Sun narrows it down to a few days of the year. The rest of the parts of the sign must then coincide with this time if we are able to observe this sign.

On September 23, 2017 there are (4) four planets in the vicinity that complete the sign and its ultimate uniqueness. Mercury, Venus, Mars, and Jupiter play their parts. Above the head of Virgo is the constellation Leo. In Leo at this time there will be Mars, Venus, and Mercury. With Leo being a constellation of (9) nine principle stars, the (3) three wandering stars make it (12) twelve at this time. Thus the garland of (12) twelve stars is upon the woman. For (3) three planets to be in Leo at this time with all of the other preconditions makes this very rare. Combined with the final piece of the picture below is what makes this sign difficult if not nearly impossible to replicate anywhere close to the time in which we live. How rare? A search 150 years before and 150 years after September 23, 2017 produced no results.

The final piece of the sign is Tsedeq (Jupiter). Tsedeq (Jupiter) was known by the ancient Hebrews as the planet of the Messiah. Tsedeq (Jupiter) entered the sign of Virgo on August 27, 2016, which coincides with a close conjunction of Venus. The next such close conjunction with these (2) two brightest planets is 49 years later. Tsedeq (Jupiter) itself enters Virgo about every 12 years. The August 27, 2016 conjunction comes exactly 400 days before Yom Kippur (Day of Atonement) 2017. Yom Kippur (Day of Atonement) always ends Teshuvah which means the 40 days of repentance (Hebrew:

תשובה, literally "return", pronounced "tshuva" or "teshuva").

Tsedeq (Jupiter) then spends 400 days in Virgo. As the sign of **Revelation 12** forms on September 23, 2017, Tsedeq (Jupiter) is in the womb of Virgo and is about to be born. Remember, the meaning of Tribulation refers to the period of labor pains before birth. The world is going to go through a period of delivery pains. This sign speaks to those coming (7) seven years—the worst in human history. However, we have been warned and אַיָּאֵל (Yahuah) will deliver those who have put their trust in **וַיָּאֵל** (Yahusha).

Tsedeq (Jupiter), though spends more than 400 days in Virgo. It is provocative that (6) six days before what looks to be the start of the 2520 days of the Tribulation. Venus and Tsedeq (Jupiter) make another conjunction (but not visible because of the Sun) on November 13, 2017. This is 444 days from the conjunction of August 27, 2016. Is it any accident then that Tsedeq (Jupiter) leaves Virgo when the Tribulation will begin?

The next sign in the Mazzeroth (Zodiac) is the scales of Libra, which means judgment. It all is lining up at the right time.

However, let us go back 1260 days from the sign of **Revelation 12** to the day of the first lunar eclipse of the Tetrad (4 Blood Red Moons) of 2014-2015. The eclipse of April 15, 2014 occurred at a specific place in the Shamyim (heavens). As a time marker that points to the sign of **Revelation 12**, it should also have some significance. This eclipse on Passover 2014 occurred right next to star of Spica in Virgo. **וַיָּאֵל** (Yahusha)'s own body was sacrificed for us on Passover. He was the Seed of the Woman. He was the ear of grain that must die that life may abound. Spica in Hebrew is Zerah meaning "seed"—the Seed of the Woman. It is the same word as found in the promises of Genesis. It is fitting then that this sign of the lunar eclipse points to the sign of **Revelation 12**, which speaks of the Messiah's birth, but also to the necessary (2<sup>nd</sup>) second part of **וַיָּאֵל** (Yahusha)'s return to earth.

This sign straight from **Revelation 12** that appears in the Shamyim (heavens) from September 23 to September 25 cannot be ignored. Placing this sign in context with all of the other signs and calculations presented, it would seem that this sign is a warning of the Tribulation that will soon begin.

If the Tribulation ends on the Day of Atonement 2024, then 2,520 back from that day is November 19, 2017. The sign of **Revelation 12** would then come 57 days before the Tribulation begins.

The sign of **Revelation 12** makes sense as a sign, warning to us that the Tribulation is coming, just as depicted in the sign itself with the virgin (Yisrael) about to go through tribulation.

The requirements of the sign make it extremely rare making 2017 the only year in which it coincides with the final generation (70 years).

By default, it must be a sign that precedes the Tribulation and signs should be a warning of what is soon coming.

Many have scoured over hundreds of different dates using astronomy software and this is the first and only date for any year that fits all (4) Four Conditions of the sign in **Revelation 12**:

(1) Woman clothed with the sun. (2) The Moon at her feet. (3) Giving birth to a single male child (the king planet Jupiter) right between the constellation's legs. (4) Crown of 12 stars.

Several close dates can be seen, such as Rosh Hashanah 2011, where 2 or 3 of the (4) four conditions were met, but 2017 is the only date that meets all (4) four conditions.

Please also note: Tsedeq (Jupiter)קדש, meaning 'Righteousness', The king planet, was identified as The Star of Bethlehem in the Bethlehem Star documentary. It is the only object in the sky that meets All (9) Nine of the conditions scripture mentioned of the Star of Bethlehem.

### **External support for 2017 as a significant year:**

A. 2017 is a Jubilee year, EXACTLY 1 Jubilee after the 1967 re-capture of Yerusalem, which was exactly 1 Jubilee after the Balfour declaration. The Balfour Declaration was a letter dated 2 November 1917 from the United Kingdom's Foreign Secretary Arthur James Balfour to Walter Rothschild, 2nd Baron Rothschild, a leader of the British Jewish community, for transmission to the Zionist Federation of Great Britain and Ireland.

B. EXACTLY 1260 days before Feast of Trumpets (Rosh Hashanah) 2017 was Passover 2014 (Blood Red Moon).

C. EXACTLY 1290 days after the Feast of Trumpets (Rosh Hashanah) 2017 is Passover, Unleavened Bread, And First Fruits.

As mentioned above, Passover 2014 happens to be 1260 days before the sign/Feast of Trumpets (Rosh Hashanah) 2017. Passover 2014 also happens to be The First Blood Moon in the 2014-2015 tetrad! Of the (4) four, it was the very (1<sup>st</sup>) first. The timing is beyond incredible.

2018, is exactly 70 years from the rebirth of Yisrael (1948), which 70 years is the maximum length of years in a generation.

Truly, I say to you, this generation will not pass away until all has taken place. **Luke 21:32 & Matthew 24:34**

"And then the sign of the Son of Man (וּמַתְּאֵל -Yahusha), will appear in the sky, and then all the tribes of the earth will mourn, and they will see the Son of Man Coming on the clouds of the sky with Power and Great esteem (glory). **Matthew 24:30**
